Workshop 20 September 2018

Mapping a path to future supply chains: identification of challenges

The main objective of this workshop is to bring together a group of experts, both industrialists and academics, in order to discuss major challenges (e.g. technological, environmental etc.) for the development of future supply chains in the manufacturing, distribution and process industries. Moreover the workshop will frame the identified challenges into potential future scenarios.

AGENDA

15:00	<i>Arrival</i>
15:00-15:20	Welcome NEXT-NET project introduction
15:20-15:30	Workshop objectives and methodology
15:30-16:30	World Café: challenges identification in the product and process dimensions
16:30-16:45	Coffee Break
16:45-17:45	World Café: challenges identification in the supply chain dimension
17:45-18:15	Allocation of challenges to future scenarios
