

> Double Degree

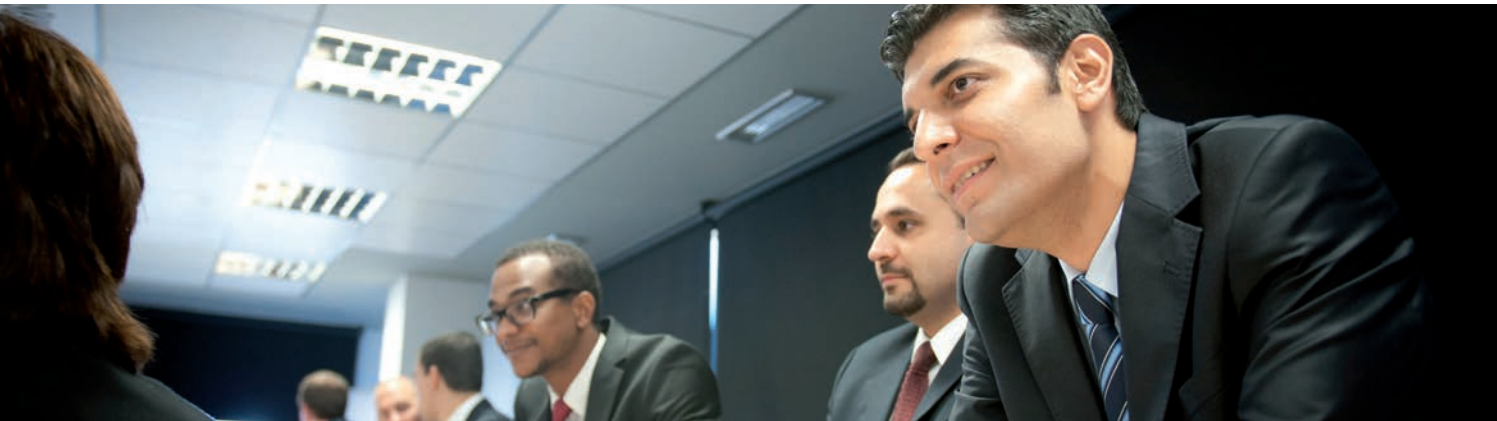

■ Objectives

This Program is intended to prepare students for careers that combine general management capabilities with specialized logistics and supply chain management skills in a globally challenging world. It is a particularly appropriate program for students who seek management responsibilities as professionals in manufacturing, distribution, retail, transportation, consulting, and software and/or logistics organizations with a system-wide perspective. The need for professionals with a sophisticated understanding of complex management issues and the ability to design and operate global networks which are constantly in flux is clear. The unique resources available at both schools can deliver that necessary understanding and knowledge.

- MIT Zaragoza Master of Engineering in Logistics and Supply Chain Management (ZLOG) at the Zaragoza Logistics Center (ZLC) in Zaragoza, Spain.
- Masters of Business Administration (MBA) at the Institute of Management Technology (IMT) in Dubai.
